Building/Facility Coordinators and UFR's:

We would like to inform you about two changes being made to frequently used IPP website pages early tomorrow morning, Wednesday, February 8.

On the following pages, the terminology of Building/Facility Coordinator has been changed to **Facility Contacts**. This will be more intuitive for users that are not familiar with the Building Coordinator role. However, when the Facility Contacts are displayed, those in the Building/Facility Coordinator roles are identified as such.

On the **Find Information About My Facility** page, the change looks like this:

![Screen Shot of Revised Page](image-url)

We have also made a change to the SR Detail page, which displays the results of a SR search performed on the IPP website. On the next page is a screen shot of the revised page. At the bottom you will find a new link for Facility Contacts.
The old Building/Facility Coordinator page did not require any security. The new Facility Contact page requires a valid netid. Access for the mobile and home phone numbers is secured by the CSCINTRA.FACILCONTACT acl.
